TREATMENT INSTRUCTIONS FOR PERMANENT MAKEUP

In order to minimize the risk of side effects and complications of treatments please follow these simple steps:

WHAT TO EXPECT

- The depth of the color may be considerably darker than you may expect, don't panic it is completely normal. Over the next 7-10 days the color will fade and may take 4-6 weeks for the true color to come through. Don't be alarmed if the color seems to disappear during the healing process, this is temporary.
- Symptoms you may experience that are completely normal: flaking, tenderness, dryness and itching, slight swelling, and redness.
- All permanent makeup procedures are a two-step process. Touch-up is always needed for a complete and desired look. Brows will hardly be perfect after one session. Book your touch up to be at least 4-6 weeks after your first session.
- Although rare, signs and symptoms of infection, including, but not limited to, redness, swelling, tenderness of the procedure site, red streaks going from the procedure site towards the heart, elevated body temperature, or purulent drainage from the procedure site.

POST-TREATMENT INSTRUCTIONS

- Avoid water contact for 7-10 days or until the peeling has completed. If the area gets wet, pat dry gently with a clean towel or tissue.
- Do not touch the healing pigmented area with your fingers to avoid getting bacteria on them. Keep your hair away from the area.
- Apply a thin layer of Vitamin A+D ointment twice a day, starting from the 3rd day until the procedure area has healed. Always use a clean cotton swab for application and not your fingertips.
- Things to avoid for 7-10 days: brow makeup, makeup in that area, sweating, sun, saunas, jacuzzi, and chlorine pools.
- Do not rub or traumatize the procedure area while it is healing. Avoid picking. Do not remove any scabs by force that may form on the treated area as this may remove pigment along with it.
- Do not engage in physical activities such as recreational water activities, gardening, or contact with animals for the initial 7-10 days.
